[End call with outcome: Out of sample \(already completed in another mode\)](#)

Placing a call: Example

The call screen will appear.
Select a number and click
the “Call” button.

Not on a call

Select phone number to dial:

5550 - Adam Zammit

Call

Placing a call: Example

Notice the status will change to “Requesting” then “Ringing” then “Answered” if someone picks up

Once answered and the script read out, click on “Yes – Continue” if the person is the one you are after

The screenshot displays a call management interface. On the left, call details for Case id: 113 are shown, including a respondent dropdown and location (Australia/Victoria). A vertical toolbar contains buttons for 'End', 'Appointment', 'Call/Hangup', 'Supervisor', and 'Start REC'. The call log shows a 'VoIP Call' on Mon 28 Jul at 03:14PM, which is currently 'Answered'. A 'Notes' tab is active, showing a table with one entry: 'Thu 24 Jul 03:51PM' by an operator with the note 'A note about ahadur'. Below this is a script area with a text prompt: 'Good afternoon, may I please speak to [redacted]? My name is Adam Zammit and I'm calling from Deakin University.' An orange arrow points from the text 'Once answered...' to the 'Yes - Continue' link in the script. Other links in the script include 'Business number', 'Answering machine', and several 'End call with outcome' options.

Date/Time	Operator	Note
Thu 24 Jul 03:51PM	[redacted]	A note about ahadur

Hangup

Placing a call: Example

You will now be back at the main screen – select “Call/Hangup” to see if there are any numbers left to call

Case id: 121
Respondent: [redacted]
Australia/Victoria
[Show details](#)

Buttons: End, Call/Hangup, Start REC

Call history table:

Date/Time	Operator	Note
Fri 25 Jul 04:46PM	Adam	asdfasdf

Good afternoon, may I please speak to [redacted]?
My name is Adam Zammit and I'm calling from Deakin University.

[Yes - Continue](#)

[Business number](#)

[Answering machine](#)

[End call with outcome: Accidental hang up](#)

[End call with outcome: Refusal by unknown person](#)

[End call with outcome: Refusal by respondent](#)

[End call with outcome: No eligible respondent \(person not available on this number\)](#)

[End call with outcome: Out of sample \(already completed in another mode\)](#)

Placing a call: Example

As we had set the outcome to be a “Refusal” we will not call this case again. Therefore this screen will appear. You will need to enter a reason for the refusal. Once this is done, select “End case” to move on to the next case, or “End work” if you need to finish work or take a break

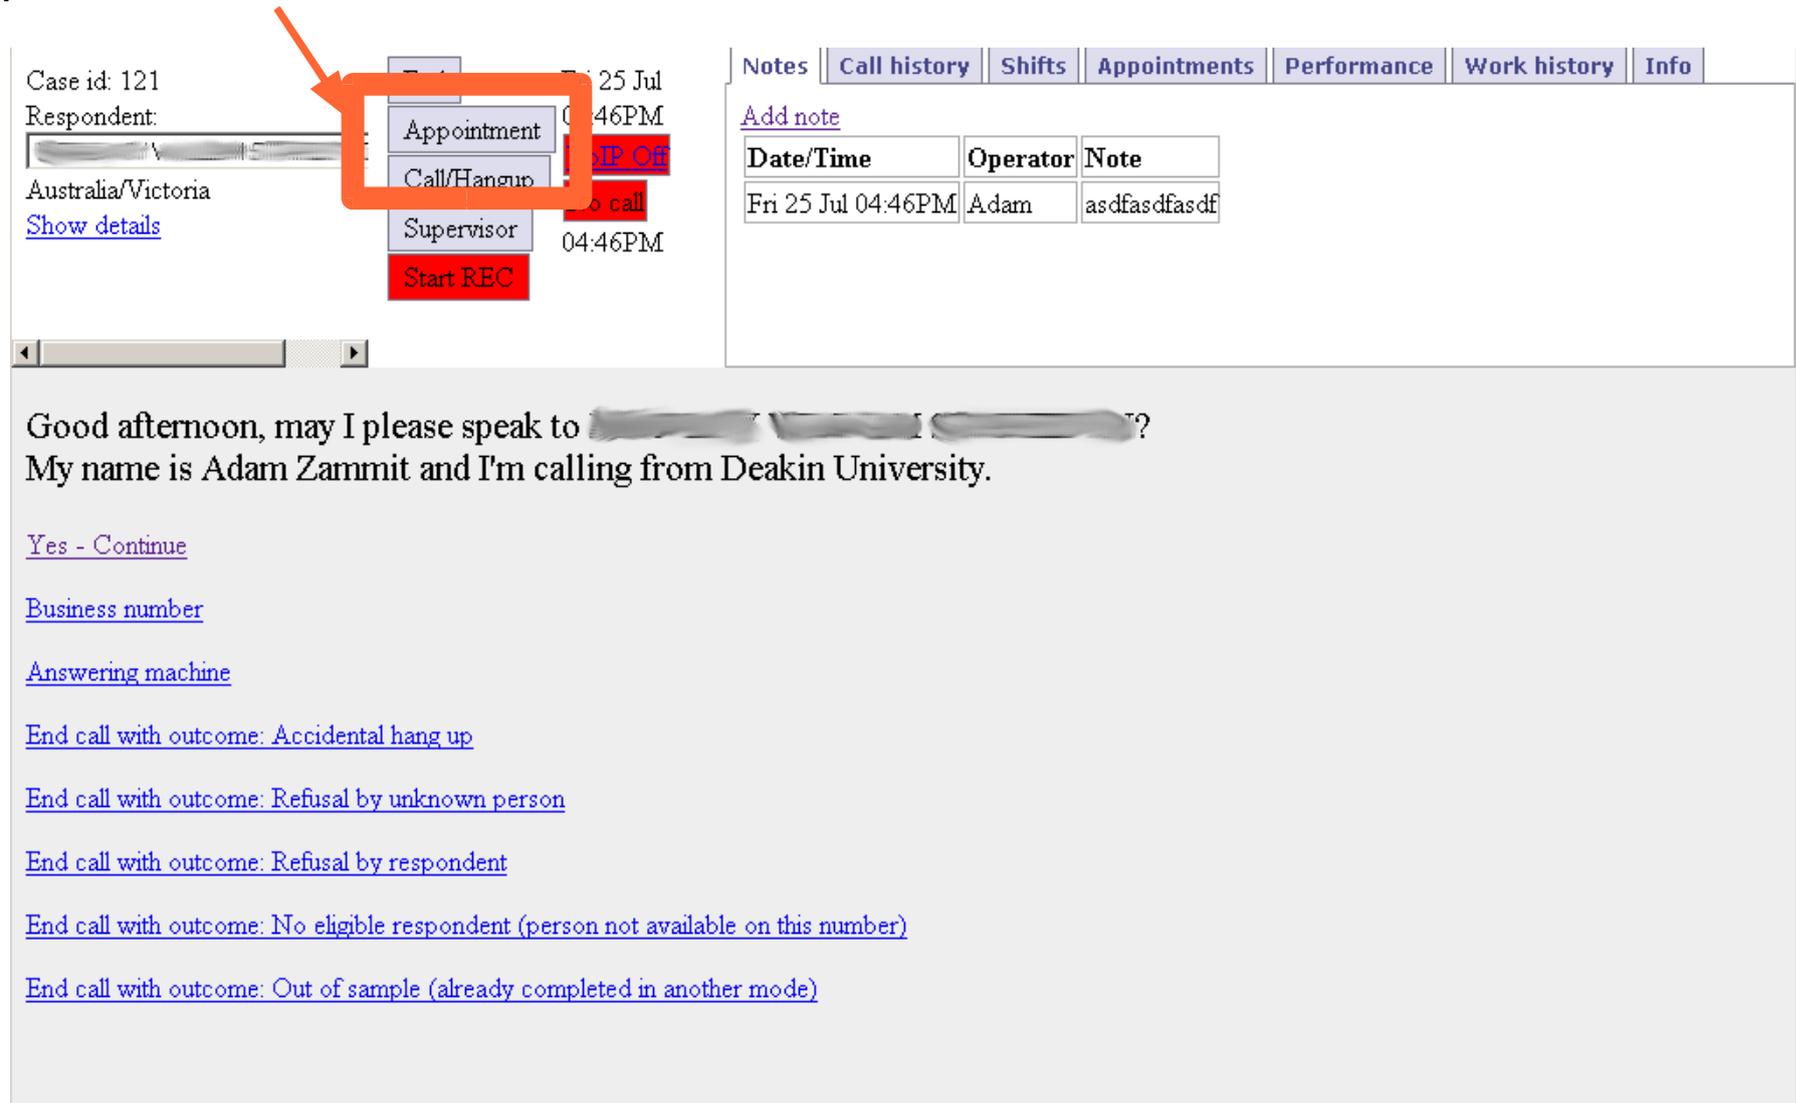

Not on a call

Enter a reason for this outcome before completing this case:

[End case](#)
[End work](#)

Schedule an appointment: Example

When on a call and an appointment needs to be scheduled. Click on the appointment button
